930 W. Avon Rd., Suite 19 • Rochester Hills, 11/1148307 • (248) 650-2440 • Fax (248) 650-4370

Attention: All Patients with Insurance Coverage

Due to continuous changes in insurance coverage, we would like to advise you as a valued patient to check with your insurance company about coverage for tooth colored restorations vs. amalgams (silver colored restorations). If this treatment is needed, some insurance companies cover only a percentage of the fee.

Some will only cover a smaller percentage or will only allow you to have amalgams (silver fillings) done, not the tooth colored ones.

The choice is yours to make on which one to choose, but we will advise you on which treatment will be ideal in every case. Tooth colored restorations are not only invisible in most cases, but also more conservative. Eliminating the need for larger restoration (filling).

We do reserve the right to charge for the treatment done if your insurance coverage is based on the lower of the two options.

Thank you,
